windscreen

vinyl · polypropylene · polyester · polyethylene · logos · digital imaging

Whether you are looking for privacy, relief from wind or glare, or trying to block out unsightly views, we carry a variety of material options and colors which are custom-fabricated in-house for your specific measurements and needs. Servicing the country from both the West and East Coasts, we are able to provide quick turnaround times on production and competitive prices. All of our windscreen are constructed of the highest quality materials and reinforced with webbing and grommets to ensure maximum potential lifespan. Collins Company windscreen can be seen on fences protecting construction sites, many of the most prestigious athletic facilities nationwide, special events (concerts, festivals, crowd control, etc. ...) and in high security government and military locations.

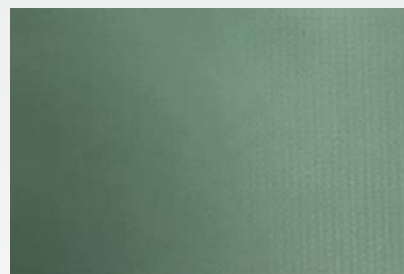

VINYL - 100% BLOCKAGE

Vinyl windscreen provides complete privacy and 100% blockage of wind and light. Recommended for areas that require complete privacy.

KEY FEATURES

- 100% blockage
- Available in 13 Oz for windscreen applications (additional weights available for special use)
- Fire retardant available upon request
- Sewn reinforced border with binding and grommets
- Logos available
- Large color selection available

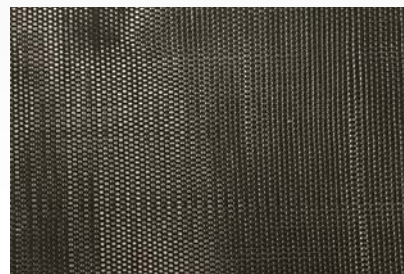

CLOSED MESH POLYPROPYLENE - 95% BLOCKAGE

Closed Mesh Polypropylene windscreen provides 95% blockage of wind and light. Constructed of woven polypropylene and treated with UV stabilizers, this material is recommended for areas that receive high exposure to sunlight.

KEY FEATURES

- 95% blockage
- Closed-weave pattern
- Sewn reinforced border with binding and grommets

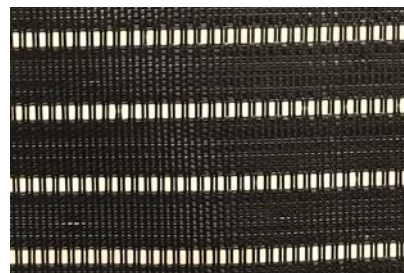

OPEN MESH POLYPROPYLENE - 78% BLOCKAGE

Open Mesh Polypropylene fence screen provides 78% blockage of wind and light. Constructed of woven polypropylene and treated with UV stabilizers in a leno stitch pattern, this material is recommended for high-wind areas, and areas that receive high exposure to sunlight.

KEY FEATURES

- 78% blockage
- Open-weave leno stitch to allow maximum air flow
- Sewn reinforced border with binding and grommets

POLYESTER - 80% BLOCKAGE

Polyester windscreen provides an 80% wind and light blockage, with an open mesh pattern, and is mildew resistant.

KEY FEATURES

- 80% blockage
- Breathable and durable
- Mildew resistant
- Fire retardant available upon request
- Sewn reinforced border with binding and grommets
- Logos available
- Large color selection available

COMMERCIAL CLOSED MESH POLYPROPYLENE - 90% BLOCKAGE

Commercial Closed Mesh Polypropylene fence screen provides 90% blockage of wind and light. Constructed of woven polypropylene and treated with UV stabilizers, this material is recommended for areas that receive high exposure to sunlight.

KEY FEATURES

- 90% blockage
- Closed-weave pattern
- Great for industrial applications
- Sewn reinforced border with binding and grommets

COMMERCIAL OPEN MESH POLYPROPYLENE - 75% BLOCKAGE

Commercial Open Mesh Polypropylene fence screen provides 75% blockage of wind and light. Constructed of woven polypropylene and treated with UV stabilizers in a leno stitch pattern, this material is recommended for high-wind areas, and areas that receive high exposure to sunlight.

KEY FEATURES

- 75% blockage
- Open-weave leno stitch to allow maximum air flow
- Great for industrial applications
- Sewn reinforced border with binding and grommets

PRIVACY SCREEN - 88% BLOCKAGE

The Privacy material is a HDPE knitted polyethylene and is a cost-saving alternative to the more permanent materials. Perfect for privacy and dust control on temporary fences and construction sites, this product provides an 88% blockage. Stock sizes available in 150' raw rolls or in 50' panels with reinforced binding and grommets around border. Standard heights are 5'8" for a 6' fence and 7'8" for an 8' fence.

KEY FEATURES

- HDPE Knitted polyethylene fabric
- Ideal for construction & commercial projects
- 88% blockage
- Stock sizes available for immediate shipment
- Binding and grommets: 50' x 5'8" and 50' x 7'8"
- Raw rolls: 150' x 5'8" and 150' x 7'8"

GREEN	BLACK	NAVY	RED
ROYAL	BROWN	BEIGE	WHITE
GREY	ORANGE		

GREENBLOCK - 95% BLOCKAGE

Greenblock precut panels are made of woven polypropylene and are finished with binding and grommets. Constructed with a closed-weave pattern, this material provides a 95% blockage, and is ideal for fences that require maximum blockage. Stock sizes available in 50' panels with reinforced binding and grommets around border. Standard heights are 5'8" for a 6' fence and 7'8" for an 8' fence.

KEY FEATURES

- 95% blockage
- Polypropylene fabric with UV stabilization
- Sewn reinforced border with binding and grommets
- Ideal for construction & commercial projects
- Stock sizes available for immediate shipment
- Binding and grommets: 50' x 5'8" and 50' x 7'8"

GREEN

CUSTOM LOGOS / DIGITAL PRINTING

Brand your school with team logos and mascots, promote your business around high visibility construction sites, beautify a fence with full color graphic murals, or whatever else you want printed on the windscreen. The options are limitless. Choose from a variety of the latest printing technologies that best suits your printing requirements.

CENTER REINFORCING TAPE WITH GROMMETS

Center reinforcing tape reduces wind effect, minimizes billowing and allows a center attachment to the fence. Center reinforcing tape is attached horizontally with grommets to add support at the center of the windscreen.

AIR VENTS

The Air Vent is a heat sealed opening with flap that allows air to pass through screen reducing strain on the fence.

WINDHOLES

Recommended in windy areas! These holes allow wind to pass through the screen, reducing stress on the fence. Reinforced stitching around perimeter of windhole provides extra durability and prevents material tear.

PLASTIC TIE WRAPS

These specially designed durable tie wraps are used for attaching fence screen. Available in 8" length or 14" length and 120 lb break strength or 50 lb break strength.

HOG RINGS

Galvanized 9-gauge or 12-gauge "C" shaped fastener used to attach netting to cable.

HOG RING PLIERS

Plier-type tool with a special groove used to fasten hog rings.

02

netting

nylon · knotted · knotless · dyneema

Collins Company specializes in the design and fabrication of netting for a variety of applications. From backstop and sideline ball field netting, to custom baseball and softball batting cages; overhead baseball field “hood” protectors, tennis court dividers, to warehouse safety netting, our high-quality outdoor netting is treated and UV-stabilized for maximum durability. All netting is finished with rope or bound with grommated borders and is available in a variety of twine sizes and breaking strengths to fit your needs.

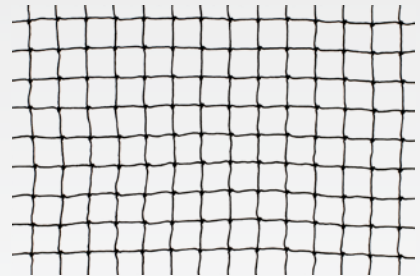

#36 KNOTTED NYLON BASEBALL NETTING

#36 Knotted Nylon Baseball Netting is the industry standard in baseball netting. Its most common uses include baseball batting cages, baseball field backstops, baseball outfield or sideline protection, etc. ... This strong, high-end knotted nylon baseball netting is used for all levels of baseball, from little league baseball fields to major league stadiums.

KEY FEATURES

- Relaxed mesh size: 1 7/8"
- Stretched mesh size: 3 3/4"
- Most commonly used on baseball fields
- Super durable
- UV stabilized and pressure dyed

#60 KNOTTED NYLON BASEBALL NETTING

#60 Knotted Nylon Baseball Netting is a heavy duty grade of baseball netting. It is most commonly used in major league baseball batting cages and in college baseball batting cages. It is extremely durable and long lasting.

KEY FEATURES

- Relaxed mesh size: 1 7/8"
- Stretched mesh size: 3 3/4"
- Excellent for close range impact
- Extremely durable
- UV stabilized and pressure dyed

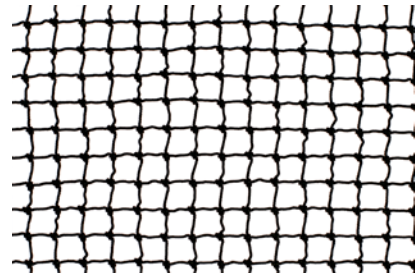

#96 KNOTTED NYLON BASEBALL NETTING

#96 Knotted Nylon Baseball Netting is an extremely heavy duty grade of baseball netting. It is most commonly used in major league baseball batting cages and in college baseball batting cages. It is extremely durable and long lasting.

KEY FEATURES

- Relaxed mesh size: 1 7/8"
- Stretched mesh size: 3 3/4"
- Extremely durable
- UV stabilized and pressure dyed

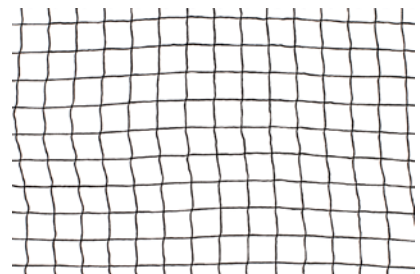

#420 KNOTLESS NYLON BASEBALL NETTING

#420 Knotless Nylon Baseball Netting is a high grade, strong baseball netting that is ideal for areas where viewing is a major concern. This lightweight knotless baseball netting is most commonly used for baseball backstops.

KEY FEATURES

- Relaxed mesh size: 1 7/8"
- Stretched mesh size: 3 3/4"
- Commonly used for baseball backstops
- Easier viewing through material
- UV stabilized and pressure dyed

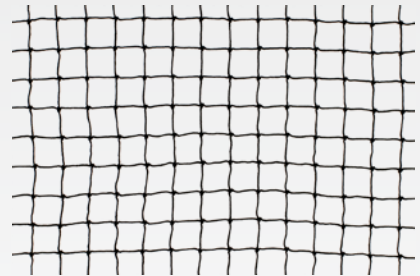

#18 DYNEEMA POLYETHYLENE NETTING

#18 Dyneema Baseball Netting is the latest baseball netting trend used at major league baseball and major college baseball facilities. Dyneema Baseball Netting is a super strong polyethylene fiber that offers maximum weight. Since Dyneema Baseball Netting is thinner than most nylon baseball netting, its structure allows for maximum viewing.

KEY FEATURES

- Relaxed mesh size: 1 7/8"
- Stretched mesh size: 3 3/4"
- Extra strong with minimal weight
- Thin structure allows for optimal viewing through material
- UV stabilized and pressure dyed

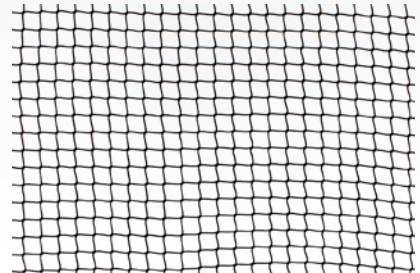

#252 KNOTLESS NETTING

#252 Golf Netting is a knotless multi filament netting that comes in black and green. This golf netting is the industry standard for use in golf cages and driving ranges. Its durability and strong design makes it ideal for close range impact.

KEY FEATURES

- Relaxed mesh size: 7/8"
- Stretched mesh size: 1 3/4"
- Excellent for close range impact in golf cages
- Industry standard for golf courses
- UV stabilized and pressure dyed

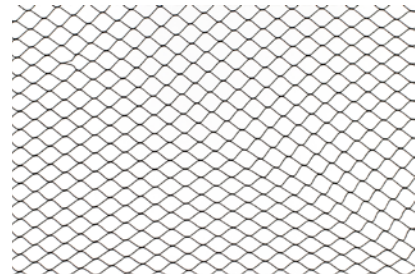

BARRIER NETTING

Golf Barrier Netting is a knotless multi filament netting that comes in black and green. Its most common use is on driving ranges to protect surrounding areas from off-course golf balls.

KEY FEATURES

- Relaxed mesh size: 7/8"
- Stretched mesh size: 1 3/4"
- Excellent for perimeter barrier around golf driving ranges
- Industry standard for golf courses
- UV stabilized and pressure dyed

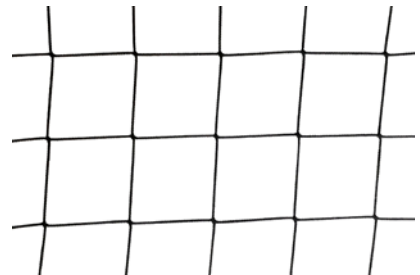

SOCCER NETTING

Soccer Netting is a high grade, long lasting netting that is ideal for soccer goals or soccer field sideline protection.

KEY FEATURES

- Relaxed mesh size: 4"
- Stretched mesh size: 8"
- Very durable
- UV stabilized and pressure dyed

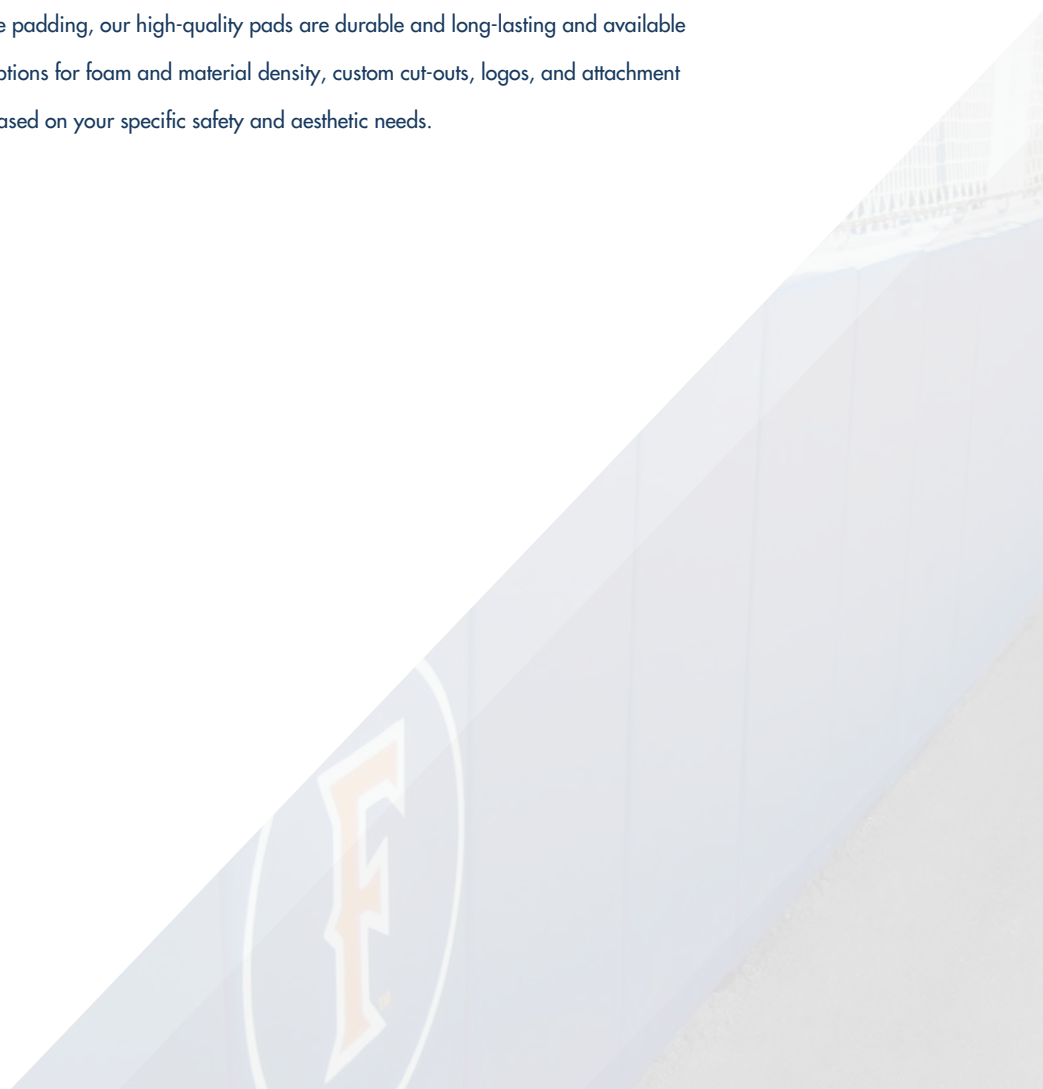

03

padding

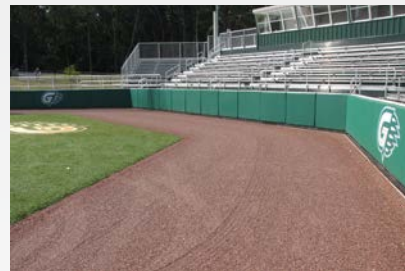

backstop · rail · gym wall · pole · protective · logos

Collins Company offers a variety of custom padding options. From wood-backed, removable wall padding, to rail and pole padding, our high-quality pads are durable and long-lasting and available in most school colors. Options for foam and material density, custom cut-outs, logos, and attachment methods are available based on your specific safety and aesthetic needs.

BACKSTOP PADDING

Reducing ball rebound and covering concrete walls or fences, backstop padding maximizes player safety on every ball field. Showcase your backstop with custom team logos and graphics and/or promote corporate sponsors.

RAIL PADDING

Protect players and fans from ball ricochet with heavy duty rail padding. Several pad densities and thicknesses available to provide maximum safety.

GYM WALL PADDING

Providing safety to athletes and spectators, wall padding is very important in every gym facility. Various pad construction and installation techniques available to ensure players and fans receive the most protection from wall impact and ball rebound.

PROTECTIVE POLE AND WALL PADDING

Reducing field hazards and minimizing injury, pole padding and wall padding is critical on all ball field facilities. Custom fabrication and design with high quality products provides each facility with the highest player safety.

CUSTOM DESIGNED PADDING

Not all ball fields, sport complexes, or gymnasiums have the same construction and custom design is necessary to bring the most safety to the situation. Our experienced fabricators and installers ensure safety is number one by designing each pad uniquely to provide maximum protection.

CUSTOM PADDING LOGOS

Showcase your facility with custom graphics and/or logos. Choose from a variety of the latest printing technologies that best suits your printing requirements.

04

tennis court products

nets · posts · court maintenance · benches · scorekeepers
clay surfaces · clay maintenance

Collins Company carries a large selection of premium tennis court equipment and maintenance items to meet your tennis court needs. Our strategic relationship with the most reputable manufacturers and suppliers of tennis court products allows us to offer a variety of the very best products. We provide clubs and major tennis facilities throughout the country, and most items are in-stock, ready for immediate shipping.

EDWARDS 30LS TENNIS NET

High quality 3.5 mm braided polyethylene tennis net body with a heavy duty vinyl coated headband. Dowels included. 42' length.

KEY FEATURES

- 3.5 mm braided net body
- Heavy duty vinyl headband
- Tapered cut along bottom

EDWARDS 30LS DT TENNIS NET

High quality 3.5 mm braided polyethylene tennis net body with a heavy duty vinyl coated headband. The top 6 rows consist of double tennis net body. Dowels included. 42' length.

KEY FEATURES

- 3.5 mm braided net body
- Heavy duty vinyl headband
- Top 6 rows consist of double net body
- Tapered cut along bottom

EDWARDS 40LS TENNIS NET

High quality 3.5 mm braided polyethylene tennis net body featuring a heavy duty polyester headband. The 6 top rows consist of a double tennis net body. Dowels included. 42' length.

KEY FEATURES

- 3.5 mm braided net body
- Heavy duty vinyl headband
- Top 6 rows consist of double net body
- Tapered cut along bottom

COLLINS ALL COURT TENNIS NET

The Collins All Court Tennis Net has a net body composed of a braided solid-core black polyethylene with UV-resistant treatment and heat-set knots to keep its shape. The vinyl headband is lock-stitched rows of white polyester thread for optimal durability. Dowels included. 42' length.

KEY FEATURES

- Most popular net Heavy-duty 3.5 mm braided net body
- Double-layer vinyl headband
- Tapered cut along bottom

COLLINS ALL COURT DT TENNIS NET

The Collins All Court Double Top Tennis Net has a net body composed of a braided solid-core black polyethylene with UV-resistant treatment and heat-set knots to keep its shape, with the top 6 rows of the tennis net having a double layer of net body. The vinyl headband is lock-stitched rows of white polyester thread for optimal durability. Dowels included. 42' length.

KEY FEATURES

- Heavy-duty 3.5 mm braided net body
- Hand-knotted double top six rows
- Double-layer vinyl headband

COLLINS ELITE TENNIS NET

The Collins Elite Tennis Net has a net body composed of a braided solid-core black polyethylene with UV-resistant treatment and heat-set knots to keep its shape. The polyester canvas headband is lock-stitched rows of white polyester thread for optimal durability. Dowels included. 42' length.

KEY FEATURES

- Heavy-duty 3.5 mm braided net body
- Double-layer polyester canvas headband
- Hand-knotted double top six rows
- Tapered cut along bottom

COLLINS PICKLE BALL NET

The Collins Pickle ball Net has a 3.0 mm twisted net cord body. Its vinyl coated headband is UV and mildew resistant. Dimensions are 22' x 3'.

KEY FEATURES

- Heavy-duty 3.0 mm twisted net cord body
- Single-layer UV and mildew-resistant vinyl-coated polyester headband

COLLINS PADDLE TENNIS NET

The Collins Paddle Tennis Net has a 3.0 mm twisted net cord body. Its vinyl coated headband is UV and mildew resistant. Dimensions are 22' x 2' 7"

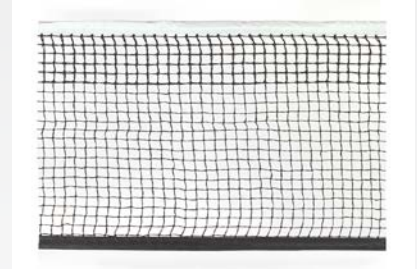

KEY FEATURES

- Heavy-duty 3.0 mm twisted net cord body
- Single-layer UV and mildew-resistant vinyl-coated polyester headband

CUSTOM SIZE TENNIS NET

If you have a custom sized tennis or sport court, chose any net listed above and we will custom cut the net to the exact dimensions specified. We will finish the edges to look like the original stitching.

TENNIS SINGLES STICKS

The Collins Tennis Net Singles Sticks are used to provide the proper 42 inch USTA regulation tennis net height for singles play. The "V" shaped groove at the top of the singles stick allows for a secure fit to the tennis net. Made of black powder coated aluminum. Sold in pairs only.

TENNIS CENTER STRAPS

The tennis net center strap features a heavy duty polyester webbing enhancing durability with double ended-clip allowing for easy attachment.

COLLINS REPLACEMENT TENNIS NET HEADBAND

The replacement tennis net headband is made from heavy duty vinyl. The replacement headband is applied over the existing headband and laced to the tennis net body. Lacing cord included.

EDWARDS TENNIS POST

These net posts are constructed from 3" powder coated steel for increased strength and durability. Constructed with integral lacing bars and comes complete with brass winder unit. They are available in round or square and green or black. Ground sleeves NOT included.

EDWARDS WINDER UNIT

Brass replacement winder unit for both round and square Edwards Posts. Includes handle, fixing screws, Vertical mounting holes measure 5-1/4" center to center, horizontal mounting holes measure 1-3/4" center to center.

ATA TENNIS POST

Completely coated with a durable baked-on-vinyl coating. Internal winding gear mechanism with easy to remove head. Constructed with integral lacing bars and come complete with internal winding gear mechanism. They are available in green or black and only come in square construction. Ground sleeves NOT included.

ATA WINDER UNIT

The removable head allows net to be removed and replaced without having to deal with or replace frayed net cable. For 3 inch OD ATA net posts (2-3/4" ID) only. Available in green or black.

SLEEVES

Round or Square sleeves – for the Edwards 3" Net Posts or ATA 3" Post. Made of galvanized steel for lasting durability. Sold in pairs only.

ANCHOR

This Center Tie-Down Anchor is made of Heavy-duty galvanized steel, with a non-rust anchor bolt.

9-JET WATER BROOM

This 9 jet water broom hooks up to a standard hose and allows you to remove dirt and debris from your tennis court and windscreens. It cleans a 4-foot path. Constructed of rust-free, heavy-duty aluminum and brass hardware.

PREMIERE WATER BROOM

7-jet water broom hooks up to a standard hose and allows you to remove dirt and debris from your tennis court and windscreens. It cleans a 36" path. 7 threaded brass nozzles, heavy-duty steel and brass construction, double ball-bearing caster, brass shut-off-valve. Shipped assembled and ready to use, 12 lbs.

PVA ROLLER COMPLETE

The tough PVA foam roller quickly absorbs and pushes away water. When the foam roller is ready to be changed, it can easily be substituted with a replacement roller (sold separately).

SOFT SPONGE COMPLETE

Soft, absorbent polyurethane foam has a powder-coated stainless steel frame and T-socket, plus an anodized aluminum handle. It can be easily substituted with a replacement roller (sold separately).

RAIN SHUTTLE SQUEEGEE

The 100% aluminum 5' Rain Shuttle is the top of the line court squeegee. Comes complete with one replacement blade.

THE 5' COURTSIDE BENCH

Constructed of high-density polyethylene to increase stability and strength. The bench legs can be secured to any solid surface, including asphalt or concrete. The 5' Courtside Bench is available in white or green. 35lbs.

THE 5' COURTSIDE DELUXE BENCH

Constructed of high-density polyethylene to increase stability and strength. The 5' Courtside Deluxe Bench features a contoured back for more comfort. The bench legs can be secured to any solid surface, including asphalt or concrete. The 5' Courtside Deluxe Bench is available in white or green. 35lbs.

THE 6½' COURTSIDE DELUXE BENCH

Constructed of high-density polyethylene to increase stability and strength. The 6½' Courtside Deluxe Bench features a contoured back for more comfort. The bench legs can be secured to any solid surface, including asphalt or concrete. The 6½' Courtside Bench is available in white or green.

SCOREKEEPER

Our Classic Steel Scorekeeper Unit features game and set scores as well as a dry-erase name sign. It includes a separate mounting bracket that will clamp to any tennis post for easy installation and removal. The steel T-Frame easily swivels allowing spectators to see the score from multiple positions. The 4" x 7" numbers are made of durable high-density plastic and can keep game scores from 0 – 7. Replacement cards available.

SCOR-POST SCOREKEEPER

Mounts securely to your net post using a rugged metal harness, and keeps score using ordinary tennis balls. Both game and sets won are displayed. All parts are durable and replaceable.

TRU-SCORE SCOREKEEPER

Clamps easily to any size tennis post. Constructed of chrome steel and features a swivel base so scores can rotate. Plastic game numbers measure 4"W x 7"H. Comes with 2 sets of game numbers, 2 sets of "sets won," name plate and pen.

CLASSIC COURT NUMBER SIGNS

These black bold tennis court numbers are on a white 8" x 10" exterior-grade styrene. The tennis court numbers include ties for easy mounting indoors or outdoors.

CHAMPION COURT NUMBER SIGNS

The tennis court numbers are made of a smoky gray plexiglass with white vinyl lettering and a white border. All numbers are available. Dimensions: 10" x 12" for court number signs and 4" x 5" for gate number signs.

COURT VALET COMPLETE

The Court Valet features a large capacity trash can and a durable tray to store balls, keys, drinks, etc. The Court Valet is constructed of high-density polyethylene and includes stainless-steel hardware to attach the unit to your net post. Replacement tray and trash can available. Available in Green or Black.

COURT CAN

Keep your tennis court clean with the UV protected molded plastic trash can. It has a special storage area for old tennis balls with a separate large trash area. Available in Green or black.

HAR-TRU

Tennis court surfacing material is the oldest and best known product used in the construction and resurfacing of sprinkler irrigated clay tennis courts. It is a natural green stone that is extremely hard and angular. The angularity helps the stone particles lock together to form a stable playing surface and the hardness provides exceptional durability. The natural dark green color is classically clay and instantly recognizable.

COARSE BLEND

Tennis court material is used for top-dressing clay tennis courts. Coarse Blend consists of only the larger, more angular particles. Coarse blend is typically used to add some sliding material and "grit" to subsurface irrigated/Hydro clay courts.

HYDROBLEND

Tennis court surfacing material is used to build, resurface and maintain Har-Tru courts with below ground, subsurface irrigation systems, including Hydro Court, Hydro Grids and Cal-Cap. Hydro blend is made from a billion-year-old Pre-Cambrian met basalt stone found in the Blue Ridge Mountains of Virginia. The angularity helps the stone particles lock together to form a stable playing surface and the hardness provides exceptional durability. The natural dark green color is classically clay and instantly recognizable.

LINE MASTER

Features a curved handle, all-aluminum construction for rust-free outdoor use, positive locking brush action and a perfectly textured brush for an easy-to-use yet firm brushing action. Brushes available with coarse or fine bristles.

LINE SCRUBBER

The heavy bristles break up the Har-Tru or clay that gets caked on the tape. Frame is made of aluminum and the brush head is reversible and replaceable.

SHOE BRUSH

This brush can be attached to the sidewalk or left free-standing. Soft upper bristles dust off the sides of shoes while stiff lower bristles scrape the soles.

TENNIE TWO-STEP

Removes court material from deep treaded tennis shoes. Shifting weight forces jets of water on shoe base, flushing out dirt. The UV resistant polyethylene lasts for years.

7' DRAG BROOM

The 7' hand model drag brush/lute combination has three individual rows of 6" bristles. Two softer outer rows of bristles move the finest particles of Har-Tru/Clay and a third firm, inner row of bristles levels low spots and divots. Turn the brush over and you have a 7' lute, perfect for cutting out high spots or leveling small patches. Available with either fine or course bristles.

36" AND 48" LUTE SCARIFIER

This 36" heavy duty or 48" commercial all-aluminum, lightweight dual purpose tool for scarifying and removing loose granules and for spreading and leveling new material.

HERRINGBONE LINE TAPE

Nonslip surface provides consistent bounce. Available un-punched, pre-punched and pre-cut one roll of 2" Tenex Pro Herringbone tape will complete one court.

CLAY COURT NAILS

2½" Aluminum Nails are designed for use with sprinkler irrigated Har-Tru clay courts. Features include a large head 7/16" diameter textured flat head. The 2½" aluminum nail is sold in a 25 lb. box that provides enough nails to install 3 sets of line tapes for a doubles court. (78' x 36')

05

tennis teaching equipment

ball baskets · teaching carts · playmate ball machines · ball mowers

Collins Company has a long history of working in the tennis industry, and we understand the importance of high-quality equipment in assisting coaches, players, and club managers to get the most out of their budgets. We inventory teaching carts, ball baskets, and ball mowers at competitive prices for immediate shipping.

Collins Company is the authorized sales and service for Playmate Tennis Ball Machines in Southern California and Nevada. We keep a full inventory of the ball machines and replacement parts for immediate shipment and/or service. Our experienced, tournament-level sales associates are available to help you find the perfect fit for your teaching or training needs.

HOAG 85 TENNIS BALL BASKET

Handle remains fixed in this position and does not fold down as in other Hoag tennis ball baskets. Handle features a foam cushion grip and basket does not have a lid. 85 ball capacity.

**HOAG 72 TENNIS BALL BASKET**

It is constructed with a rod made of pliant material that flexes slightly as you pick up balls, eliminating bent wires and broken welds. The tennis ball basket also includes a lid to help prevent the balls from spilling. Swinging handles to allow for basket to stand or act as handles to assist with picking up tennis balls. 100 ball capacity.

**HOAG TENNIS BALL TEACHING CART**

Constructed with a solid one-piece welded frame requiring only the basket and handle to be bolted on. Attached to the legs of the basket is a storage tray for holding tennis rackets, lesson books, and teaching accessories. The wheels are constructed with sealed ball bearings on axles and casters to resist, dust, dirt, and clay. 350 ball capacity. Lime Green.

**DELUXE CLUB TEACHING CART**

Heavy duty metal frame designed with perfect height of 38" to top of hopper. Locking lid that lays flat against the side and cart comes with basket hanger and water bottle holder. 325 ball capacity.

TENNIS BALL TUBES

Lightweight and plastic, this ball tube has an 18 tennis ball capacity and can hang on the fence when not in use.

iPLAYMATE

Like My Drill is a great way to create drills for your PLAYMATE ball machine and then share those drills with your friends. Using Bluetooth, you can remote control the ball machine without draining lots of battery power.

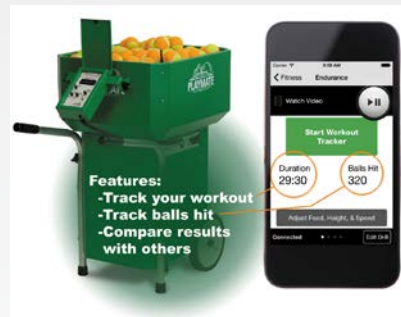

1. Choose your skill level.
2. Choose your shot.
3. Choose your direction.

That's it, you're ready to play!

Note: This app is designed to be used together with the iPLAYMATE Tennis ball machine Bluetooth communicator.

KEY FEATURES

- Remote control your PLAYMATE ball machine
- Create drills
- Share drills with friends
- Organize drills by type, skill, player names, or anything else
- Create library of drills for the club
- Designed with Bluetooth for longer battery life
- Supports device rotation

ACE

This ball machine is good for rentals. The ACE CANNOT be upgraded to have the features of the SMASH, the DEUCE, or the GENIE. It's also NOT compatible for use with an iPhone or iPad.

KEY FEATURES

- Holds 200 balls
- Topspin and Backspin
- Electronic Direction to 1, 2, or 3 Lines
- Electronic Height
- User-friendly Control Panel
- SERVE LIFT Friendly
- 2 Function Remote Control (On/Off with drill reset)
- 3 Year Limited Parts Warranty

iSMASH

The iSMASH is our base model and is totally upgradeable. Setup is easy with the intelligent direction patterns. Just choose a preset pattern or create your own. You can purchase this machine now and buy upgrades later that turn it into the DEUCE, the GENIE, or to use it with your iPhone or iPad.

KEY FEATURES

- Intelligent Direction Patterns
- iPlaymate Workout Tracker Ready
- Interchangeable and Upgradeable (Works with ALL Controllers)
- Holds 300 Balls
- Variable Topspin and Backspin
- Variable Electronic Height
- 7 Position Programmable Electronic Direction with Programmable Random
- User-friendly Controller
- SERVE LIFT Friendly
- 2 Function Remote Control (On/Off with drill reset)
- 3 Year Limited Parts Warranty

iGENIE

The iGENIE is the easiest ball machine to use. Just select a Player Level and Select Shots to play. Or, don't select anything and the iGENIE will start feeding an Easy Rally Ball straight ahead.

The iGENIE for the Pro: Creating drills for groups is easy. Select a Player Level and then Select Shots in order. For example, hit Medium Player level, and then hit High Short Ball two times and then hit Lob two times. On the picture of the tennis court, Set Directions for a 2-line drill by pressing the button left of center and then the button right of center. That's it! You have a 2-line group drill.

Includes iPhone/iPad Support: Want to do more with your iGENIE? No problem, the iGENIE includes iPLAYMATE Tennis for iPhone and iPad support. Create drills, save drills, track workouts, and compare results with others.

KEY FEATURES

- 10 Distinct Programmable Shots
- 10 Shot Delays
- Programmable Random Shot Sequence
- Holds 300 Balls
- Variable Topspin and Backspin
- Intelligent Direction Patterns with Programmable Random
- Variable Electronic Height
- User-friendly Controller
- SERVE LIFT Friendly
- 2 Function Remote Control (On/Off with drill reset)
- 3 Year Limited Parts Warranty

GRAND SLAM

The name says it all! The GRAND SLAM is the fastest ball machine in the world. It can throw any type of spin, including:

- Left-handed Slice
- Right-handed Slice
- Left-handed Kick
- Right-handed Kick
- American Twist

The GRAND SLAM can land a 120 MPH serve every time. It can randomly serve to a player up the "T", at the body, or out wide. The unique four wheel design allows the GRAND SLAM to grip the tennis ball like no other machine in the world. It can be used for return of serve for groups. It can simulate a 1st-serve, 2nd-serve combination to 2-lines. The options are endless!

You can purchase this machine now and buy an upgrade later that will let you use it with your iPhone or iPad.

KEY FEATURES

- 120 MPH Serves
- Any Slice or Kick
- 7 Distinct Programmable Shots
- 7 Shot Delays
- Programmable Random Shot Sequence
- Great for Enhancing Ball Recognition Skills
- Upgradeable and Interchangeable (Works with ALL Controllers)
- Holds 300 Balls
- 7 Position Programmable Electronic Direction with Programmable Random
- Variable Electronic Height
- User-friendly Controller
- SERVE LIFT Friendly
- 2 Function Remote Control (On/Off with drill reset)
- 3 Year Limited Parts Warranty

THE SERVE LIFT

Upgrade your new ball machine with a Serve Lift. Not only can the Serve Lift help you practice the most important shot in tennis, the serve return, but it can do so much more. Your opponent often hits a slice with the racquet high in the air, so practice a realistic slice that comes from a naturally elevated position to create a truly game like environment.

KEY FEATURES

- Practice Defensive Lobs against the Ball Machine's Overhead
- Practice Poaching by Reading the Ball Machine's Wide or Inside Serve
- "Safety First" Stable Design, Aircraft Aluminum Construction, 3 Year Limited Parts Warranty

HALF VOLLEY

This machine has the features to make you a better player. Quality and performance built into every unit. Portable and durable for years of practice.

KEY FEATURES

- Simple Point-And Shoot design
- Lightweight at 42 lbs.
- Non-memory, removable battery-pack system (4hr)
- Variable electronic ball speed and feed rate
- Variable topspin and backspin
- Commercial pitching wheels pitch all balls (old or new)
- Manual height control
- Integrated sliding ball hopper
- Aircraft aluminum construction
- 2 year limited warranty
- DIY upgrades (sold separately)
- 2-line oscillator
- Remote control
- SMART charger
- Holds 200 balls

VOLLEY

This machine has everything you need and more, with the quality that Playmate is known for. Portable and built to last for years of practice.

KEY FEATURES

- Lightweight at 46 lbs.
- 2-line oscillator
- Variable electronic width
- Programmable random Left or Right
- Commercial remote control
- Non-memory, removable battery-pack system (6hr)
- SMART charger
- Holds 200 balls
- Variable electronic ball speed and feed rate
- Variable topspin and backspin
- Commercial pitching wheels pitch all balls (old or new)
- Manual height control
- Integrated sliding ball hopper
- Aircraft aluminum construction
- 2 year limited warranty

PLAYMATE TENNIS BALL MOWER

Effortlessly pickup an entire court-full of tennis balls in seconds. Easily fold the arms in to get through gates and in between net posts. Works on clay courts. Players get tired of picking up balls long before they tire of hitting them! Because players are having more fun hitting balls they will pay more for ball machine rentals.

KEY FEATURES
